

Fidessa signs Susquehanna Financial Group as latest managed enterprise client

New York, June 21, 2011 – Fidessa group plc (LSE: FDSA), provider of high-performance trading, investment management and information solutions for the world's financial community, has today announced that Susquehanna Financial Group, LLLP (SFG), the institutional broker-dealer member of the Susquehanna International Group of Companies (SIG), has selected the Fidessa sell-side trading platform to support its institutional equity trading desk. SFG will deploy the trading platform through the managed enterprise delivery model, which combines the flexibility of an enterprise installation, using Fidessa's expert consultants to customize the system to accommodate SFG's specific workflow, with the benefits of leveraging Fidessa's fully hosted facilities management.

The Fidessa trading platform will be rolled out to a number of users across multiple US locations. It comprises a core order management system, which incorporates comprehensive STP for middle-office flows and back-office interfaces. SFG will also benefit from additional capabilities that include advanced trading tools for basket and algorithmic trading, as well as client profitability tracking. The Fidessa platform will be fully integrated with numerous in-house and third-party systems used across SFG and SIG.

Justin Llewellyn-Jones, chief operating officer of Fidessa US, added: "The managed enterprise operating model was launched to enable us to focus on delivering a customized solution to customers like SFG, whether they operate Fidessa software at their own site or take advantage of the efficiencies offered by our facilities management. The model allows firms to use our leading technology while reducing their total cost of ownership without sacrificing any of the flexibility that they may require. This client win demonstrates again the attractive nature of this delivery option, and we are delighted to add SFG to the growing number of companies in the US and Europe that have opted for the managed enterprise model."

Fidessa serves one of the world's largest and most diverse trading communities, linking more than 2,400 buy-side institutions to more than 600 brokers and 150 markets across EMEA, Asia Pacific and the Americas. The Fidessa network now carries executed order flow of around US\$800 billion each month.

About Fidessa group

Exceptional trading, investment and information solutions for the world's financial community.

New technology, new regulation, new challenges: making money in today's financial markets is all about staying ahead of the curve. Having the capability to spot new trends and act fast turns change into opportunity. That's why 85% of the world's premier financial institutions trust Fidessa to provide them with their multi-asset trading and investment infrastructure, their market data and analysis, and their decision making and workflow technology. It's also why \$10 trillion worth of transactions flow across our global network each year. Because we're the market leader, we can also offer unique access to the world's largest and most valuable trading community of buy-side and sell-side professionals, from global institutions and investment banks to boutique brokers and niche hedge funds.

Fidessa is a global business with scale, resilience, ambition and expertise. We've delivered around 30% compound growth since our stock market listing in 1997 and we're recognised as the thought leader in our space. We set the benchmark with our unrivalled set of mission-critical products and services and, uniquely, serve both the buy-side and sell-side communities. Ongoing investment in our leading-edge, integrated solutions ensures Fidessa remains the industry's number one choice.
