

## **Fidessa wins dual accolades at Intelligent Trading Technology Awards** *Named Best OMS and Best Cross Asset Trading System*

9th June 2017 - Fidessa group plc (LSE: FDSA) today announced that it has been named Best Sell-side OMS and Best Cross Asset Trading System in the 2017 Intelligent Trading Technology (ITT) Awards. These latest accolades bring to five the number of awards Fidessa has received this year for its sell-side trading platform.

With brokers today operating in an increasingly competitive and highly regulated marketplace, they need to offer a differentiated service to their buy-side clients whilst meeting their regulatory obligations and controlling costs. Fidessa's fully-hosted, high performance, global platform connects to over 220 markets across five asset classes. Combining exceptions-based workflow with a range of smart visualisation tools that help them make sense of the vast amounts of data available to them, it facilitates the highest levels of execution quality and control.

Commenting on the awards, David Polen, Global Head of Electronic Execution at Fidessa, said: "We have invested significantly in our platform to ensure that our customers can not only meet the challenges of trading in today's highly complex marketplace but that they can do so efficiently and cost-effectively. We are really pleased to have won these two awards. They represent validation by the industry of the ongoing efforts Fidessa is making to provide the very best technology and the highest levels of service."

Andrew Delaney, President of A-Team Group, hosts of the ITT Awards, added: "We are pleased to offer our congratulations to Fidessa on their prestigious Intelligent Trading Technology Award wins. Our readership of 15,000 senior trading technology executives clearly voted Fidessa as the leading provider of Best Cross Asset Trading System and Best Sell-Side OMS."

Fidessa supports over 900 clients and 23,000 users around the world. The Fidessa network provides connectivity to 5,500 buy-sides and 715 brokers across 221 markets globally. The network carries flow with a value of US\$1.7 trillion each month.

Fidessa has garnered a number of awards for its products and services so far in 2017, including the Markets Media's Market Choice Award for Best Sell-side OMS, Waters Sell-side Technology Award for Best Sell-side Front Office Execution Platform and the CTA Intelligence US Award for Best Trading and Execution Technology. The latest awards were presented at a gala reception in New York last night following the International Trading Summit.

## **About Fidessa group**

Exceptional trading, investment and information solutions for the world's financial community.

New technology, new regulation, new challenges: making money in today's financial markets is all about staying ahead of the curve. Having the capability to spot new trends and act fast turns change into opportunity. That's why 85% of the world's premier financial institutions trust Fidessa to provide them with their multi-asset trading and investment infrastructure, their market data and analysis, and their decision making and workflow technology. It's also why around \$20 trillion worth of transactions flow across our global network each year. Because we're the market leader, we can also offer unique access to the world's largest and most valuable trading community of buy-side and sell-side professionals, from global institutions and investment banks to boutique brokers and niche hedge funds.

Fidessa is a global business with scale, resilience, ambition and expertise. We're listed on the London Stock Exchange and recognised as the thought leader in our space. We set the benchmark with our unrivalled set of mission-critical products and services and, uniquely, serve both the buy-side and sell-side communities. Ongoing investment in our leading-edge, integrated solutions ensures Fidessa remains the industry's number one choice.
